## WORK EXPERIENCE

---

### Upwork

**Jos, Nigeria**

*FreeLance FrontEnd Developer*

*May 2021 - Present*

- Developed user-friendly interface for an e-commerce site, driving a remarkable 50% surge in online sales within the inaugural quarter of launch, resulting in \$10k+ revenue growth.
- Designed and created an automation app which I use to automate the distribution of messages to my discord server which in turn boosted my productivity and save time by 20%
- Streamlined the development of a friendly user-interface for the message board of a company app, which in turn resulted in a 30% increase in engagement and participation on the platform.
- Collaborated with cross-functional teams to optimize a food delivery app's performance, which reduced loading time by 4 seconds and improved the overall user experience, resulting in a 20% increase in food sales.
- Revamped the interface of an existing website by implementing modern design principles and techniques, which led to a 20% increase in user engagement and a 15% overall decrease in the site's bounce rate.
- Developed and implemented a user-friendly website for a fashion brand, leading to a 40% increase in online traffic and a 30% increase in online sales.
- Executed SEO techniques to achieve top-four search engine rankings for relevant keywords, leading to a significant 60% boost in organic website traffic and enhancing online visibility for the target audience.
- Built and deployed a stunning website for a CEO, resulting in a 30% boosted reach with his target audience.
